

**CLAIMS**

What is claimed is:

1. A multilayer graphic article comprising:
  - (a) a fabric matrix or support having an upper and lower surface;
  - 5 (b) at least one image layer disposed on said upper surface of said fabric matrix or support;
  - (c) a protective layer disposed over said at least one image layer; and,
  - (d) an adhesive layer adhered to said lower surface of said fabric matrix or support.
- 10 2. The article of claim 1, further comprising a release liner attached to said adhesive layer.
3. The article of claim 1, further comprising anti-skid particles attached to or  
15 integral with said protective layer.
4. The article of claim 1, where said upper surface of said fabric matrix is primed.
- 20 5. The article of claim 4, where said upper surface of said fabric is primed with an acrylic resin or a urethane resin.
6. The article of claim 1, where said lower surface of said fabric matrix is primed.  
25
7. The article of claim 1, where said fabric matrix is woven.
8. The article of claim 1, where said fabric matrix is non-woven.
- 30 9. The article of claim 1, where said fabric matrix includes filaments or fibers that comprise polyaramides, polyesters, polyolefins, or polyamides.
10. The article of claim 9, where the fibers or filaments are treated.

11. The article of claim 1, where said fabric matrix has a thickness of about 0.005 cm to about 0.05 cm.

5 12. The article of claim 1, where said adhesive layer has a thickness of about 0.005 cm to about 0.025 cm.

13. The article of claim 1, where said protective layer has a thickness of about 2 mils to about 15 mils.

10

14. The article of claim 4, where said primer layer has a thickness of about 0.0065".

15. A multilayer graphic article comprising:

15

(a) a fabric matrix having upper and lower surfaces;

(b) a first primer layer disposed on said upper surface of said fabric matrix;

(c) a graphic layer disposed on said primer layer;

(d) a protective layer disposed over said image layer;

20

(e) a second primer layer disposed on said lower surface of said fabric matrix; and,

(f) an adhesive layer adhered to said second primer layer.

16. The article of claim 15, where said fabric matrix has a thickness of about 0.005 cm to about 0.05 cm.

25

17. The article of claim 15, where said protective layer has a thickness of about 2 mils to about 15 mils.

18. The article of claim 15, where said first primer layer has a thickness of about 0.0065".
